INSTRUCTIONS

The purpose of this annual survey is to provide the U.S. Department of Education and the Missouri Department of Elementary and Secondary Education with current information on the location and number of children living in institutions for neglected or delinquent children. The information is needed for the formula that will be used to compute allocations for local educational agencies responsible for providing education for institutionalized neglected or delinquent children.

In some cases, education for children in a State-operated institution is provided by the local education agency. The institution should be included in this survey of children in local institutions unless there are specific arrangements for reimbursement for the State agency responsible for providing free public education.

A separate report should be completed for each institution that meets the requirements of the definitions in Section I, Item 2, of the survey form.

SECTION I - INSTITUTION AND SCHOOL DISTRICT

1. Name and Address of Institution – If the name and address of institution has changed, please contact our office at 573-751-2641.

2. Type of Institution - Check only one box to identify the type of institution being reported. If an institution does not meet the definitions of institutions cited in the Title I regulations, it **SHOULD NOT BE INCLUDED** for purposes of this survey. Please note that the category of an institution should not change from year to year unless there has been an official change in the purpose for which the institution is operated. For example, if an institution is operated for the care of neglected children, but the majority of the children residing in the institution during October are children adjudicated to be delinquent, the institution should still be reported as an institution for neglected children until its charter or purpose is officially changed to show that it is an institution operated for the care of delinquent children. Consistency in reporting from year to year is necessary.
